PREFACE

Dear Young Friends,

We place before you a series of books on "The World Around Us—Step by Step" The Sub Title of the series will interest you, for our aim is to help you to answer yourselves your usual questions—What? When? Where? How? and Why?

There is so much to learn about ourselves—our past and our present, about plant and animal life, about things we do and use, about strange phenomena of science and its inventions and about man's efforts to make his life comfortable.

Most of you love to read books according to your age-group and interest. Our aim is to just awaken your interest and arouse your curiosity so that you build a life-long habit to keep your five senses awake.

This series of books does not make a dictionary or an encyclopaedia or a book of knowledge. We are only taking you to various fields in an informal manner. We will help you to walk with celebrities of the past and the present; we shall take you to the agricultural fields and to the industrial plants; you will converse with plants, animals and insects; you will be on the sports ground; you will walk through the corridors of ancient monuments and modern skyscrapers; you will be at the post office, at the railway station, at the airport, in the hospital, in the bank, in the research laboratories, on the dams, in the Parliament House, in fact everywhere. We may not be able to cover details of all fields but will certainly give you a 'touch and go' feeling.

The study is systematic, step by step, from the known to the unknown, from the particular to the general. We do not jump from one field to another haphazardly. Our approach is topical, with short introductions to arouse your interest in a particular field. We may come back to the same field again in the higher ladder to provide you more knowledge in that particular field. It is only at a later stage that you will have 'Mixed Bags' for quicker thinking and quicker response.

You will notice that the series has innumerable illustrations because we strongly believe that in such books pictures should do most of the work. The series is intended to be an exhibition of the wonderful show that the World has in store for you.

We hope you will be earnest in your approach and take it easy, in a non-formal and playful manner. You should be able to answer about fifty per cent of the questions on your own; for another twenty-five per cent you have to make some effort; and for the rest twenty-five per cent you may have to run about, seek information from your parents and teachers or look up reference books in the library. Sincere efforts will pay a good dividend. There will be no fun indeed, if you could straight-away answer all questions.

STEP 1

ART OF HOUSE-KEEPING :

Do you know what problems your Mummy has to face in House-keeping ? She has to keep the cupboards and fridge full to satisfy your fancies at odd hours. All of a sudden you may demand a particular dish of yours. If you don't get it, how do you manage to win the battle ? (By weeping and crying aloud)

Find out the answers to the following questions :

1. Which brand of Cooking Oil
does your Mummy use ?
2. Which Blade does your Daddy
use for shaving ?
3. Which brand of Tea is used in
your family ?
4. Which brand of Washing Soap/
Powder is used by your
Mummy ?
5. What is the name of the kero-
sene stove used in your house ?
6. What are your Mummy's ear-
rings made of ?

7. Which metal is generally used by ladies for their ornaments ?
8. Name two metals of which cooking utensils are generally (i)
(ii)
9. Does your mummy buy wheat or flour ?
10. If you have got a pressure cooker at home, find out its size.
11. At what price are the following articles purchased normally ?
- i. Milk per litre
 - ii. Dalda/any other cooking oil per kg
 - iii. Tea per lb
 - iv. A packet of blades
 - v. Chocolate 5-star
